

CARNEGIE ORIENTEERING.

Orienteering - permanent course.

This orienteering course is provided for your enjoyment by Leeds Metropolitan University and Leeds City Council with assistance from Airienteers Orienteering Club. You take part entirely at your own risk and none of the organisations involved can accept any responsibility for accident or injury resulting from your participation.

The control posts for the Permanent Course are wooden posts with an engraved letter and number - the letter code is shown in the Description (below) - the check number is for you

to write down to prove that you have visited the correct post. You can visit posts at any time. It is suggested that you follow one of the recommended courses.

The Yellow Course is suitable for anyone over the age of 16 and for children accompanied by an adult or in an organised group. After doing the Yellow Course you may like to have a go at the Orange or Light Green Courses which are longer and involve more difficult navigation. Distances are measured in a straight line, so you are likely to travel further than the distance shown.

Recommended Courses.

Yellow Course 9 controls, 2.0 km			Orange Course 11 controls, 3.2 km			Light Green Course 10 controls, 4.2 km

Leeds Metropolitan University

Leeds Metropolitan University is striving to be a world-class regional university, with world-wide horizons, using all our talents to the full. We are one of the largest universities in the country, with over 52,000 students and 3,500 staff. We have two contrasting learning environments in Leeds, the traditional setting of one campus in the world famous sporting area of Headingley and one intertwined with the business, health, civic and entertainment quarters of Leeds.

Orienteering Again!

If you have enjoyed orienteering on the Carnegie Orienteering Permanent Course you may be interested to find more information about orienteering in Yorkshire. There is an event almost every week somewhere in Yorkshire. The local club is called Airienteers and covers Leeds and Bradford council areas and the western part of the Yorkshire Dales. Airienteers

We are also developing in partnership opportunities to study locally across the North. Our regional university network involves fourteen partner colleges, from Newcastle to Nottinghamshire and from Grimsby to Belfast, with over 300,000 students between them. Together, we are creating on this side of the Atlantic the equivalent of a major American state university system, which we term a Great North Uni. www.leedsmet.ac.uk

put on about 25 events each year ranging from local informal events costing £1 to enter and with fewer than 50 participants to major regional or national events with up to 1000 competitors.

You can find details of Airienteers and future events by visiting their website (www.aire.org.uk).
