What to do....

This is an informal and largely 'do it yourself' event. At registration you will be given a map for your course. This has the control descriptions (the features you are looking for, and the code number on the SI box) on. If doing green, don't look at the course until you've started!

When you are ready to go, clear your dibber at the clear station, then dib the start SI box.

There will be volunteers at the start if you need help.

There are SI boxes at all the controls apart from half a dozen on the green course where we trust you to touch the flag.

There will be tapes from the last control (103) to the finish, where you must dib the finish box.

Then go to the download tent and download your dibber. You will get a printout of your time and controls visited. Please check you've got the right control numbers and write your time on the registration sheet for your course. Give your dibber back if you've hired it.

YOU MUST REPORT TO THE FINISH, PLEASE!

If a lot of people turn up, we may need to recycle maps.

Courses close at 3.15pm. Emergency Contact Number is 07771 843255.

Other information

There has been extensive thinning in Danefield since the last event. This is shown on the map by a green vertical line screen. Only the green course goes into these areas - other use paths around them. Rides (thin black dashed lines) on the map indicate the major extraction lanes - these are nearly all deep mudbaths. They cannot be run along but can usually be crossed ok.

White and yellow courses have some smiley and sad faces to tell you if you are on the right (smile) or wrong (sad) route. [There is a social for AIRE members at the Cheerful Chilli café just across the road from the car park after the event.](#)

We hope you enjoy your day. David Williams (planner), Tony Thornley (organiser)
