Thanks to everyone for their appreciative comments after running in some pretty miserable conditions.

Apologies to those who had to use a re-cycled map, we'd underestimated how many would be there tonight, and also to anyone who had to deal with any confrontations with locals, all controls were sited on public access land.

Congratulations to Leon for getting all but 2 of the controls, must have been some very fast running as it was over 11km to get all controls.

Hope everyone has a great Christmas, see as many of you as possible for the New Year's Day event at Baldon Moor
