Thanks to everyone who came, hope you enjoyed it despite the bitter temperatures.

A promising start to the 60 minute format on a map that is well suited for it (or more!), a lot of people late on both deadlines! Very easy to plan using open orienteering map so hopefully more people can give it a go, maybe in some different areas?

Apologies to those who didn't find #26, I had placed the circle in the wrong place, it should have been 3 road junctions further south, a few people struggled with #15, but a couple claimed to have found it. According to street view of July 2015 it is in the wall outside Windhill Conservative club, just down from the bus stop.

Any errors or queries with the results, let me know.

Leon
