

The Chevin Night Score Event - 10 February 2016

RESULTS

Thanks all, for supporting tonight's event. A nice mix of veterans, students, novices and old hands. Athletes all. A special welcome to the fell runners giving orienteering a go and to Martin Smith of DEE for travelling from Chester!

Cold and dry. Great night-O conditions. I was determined to make the course Jack- and Leon-proof, i.e. you couldn't get all the controls. A score event with start/finish at the top of a very steep hill makes for some tricky decisions. How far down to go? As well as the usual ... What's my optimum route? When to switch maps? Which controls to sacrifice? Congratulations to Ian Furlong for topping the scores.

Feel free to check your scores. Note the cruel, ascending scale of penalty points has been rigorously applied. It's a tough world.

Thanks to ChrisB for co-ordinating the series and to Nicky for help on the night. Good comments, no injuries, everyone accounted for. Just when I thought it wouldn't get any better, three of you volunteered to collect controls! Huge thanks to DavidA, LucyT and IanF.

Rob King

Penalty = 10pts 1st part/minute late, 20pts 2nd part/minute, 30pts 3rd part/minute,etc, etc. Cruel indeed.
