

AIRE Night Score League #4, Bramley Fall, Wed 15 November 2017

It was really good to see a new mix of runners with a large number of new faces. I hope you all enjoyed the run and didn't find the use of two maps too confusing! There was lots of discussion regarding the two different types of maps after the event with lots of advice and tips being shared from the more seasoned runners to the new starters.

Certainly it was a good event to watch with people making lots of different decisions over which areas to concentrate on and when to race across the bridge from one area to another. People tended to concentrate on the Bramley woods twice, but the highest scores were through getting more of the Horsforth Road controls.

Congratulations to Alice Leake who managed to get all 27 controls across the 3 maps – something that I didn't think was going to be achieved when I set the course!

If people do have feedback on the event – good points and bad – please leave it on the Facebook event so that we can see which bits people did + didn't think worked – given this event probably had more variety than most and used a new map / area for the first time. Tim
