Thank you to everyone who competed. Apologies for not marking the Start/Finish on the map! You all managed to find your way back alright.

Hope you enjoyed this new map of Otley created using 'Open Orienteering Map'. The software comes complete with post boxes marked as controls, although a couple needed their positions correcting before printing. Also, a few of you struggled with the control numbers not being close enough to the control circles, making it unclear which circle the number relates to. This was tricky to adjust, so I left it as it was.

A good effort by everyone; only Leon managed to clean up all the controls.

Any queries on the results, please contact me on membership@aire.org.uk
