

Burley Park – 24th October 2018

Thanks to all that turned up last night, I hope you all enjoyed the course (It was my first time organising). My intention was to keep you thinking about when to swap maps. Apologies for the vague map/control description at 30, there are loads of features in that area that aren't mapped on open O maps. Speaking to people afterwards, I think it was a successful event!

Congratulations to Leon achieving the overall win despite time penalties.
