

Greengates Night Score Event 5th February 2020 - Results

It looks like most competitors took a route that started with control 29 and then headed up to Thorpe Edge followed by a variety of routes around the further controls. With very few braving the mud around the couple of controls in the woods.

I was sure that nobody would get them all in 60 minutes, but Alice Leake was nearest, getting 22 of the 29 controls, followed by James Howlett.

Maybe I had planned too much running, given the scale was 1:12500 and there were lots of hills, but hope everyone enjoyed what was a surprisingly good area.

And hopefully I got everyone's names correct; please let me know on r123bumstead@googlemail.com if not.

Thanks, Rob
