AIRE Wortley urban 8 October 2025

The opening event of Airienteers' Autumn Night Score League in Wortley saw a strong turnout from the University of Leeds. Thank you to everyone who took part, especially anyone attending their first AIRE event.

It was tricky to find an optimal route through the area. Most runners began with a big climb up the steps and on to the 40-point control on Cabbage Hill, although this led away from the appealing cluster of 20- and 30- point controls at the bottom of the map. Hopefully, everyone still had the energy to look up and enjoy the great view over the city on a clear evening.

Thank you also to the Hanover Arms for hosting us. The room was a great size for assembly and post-race conversation.

The next event in the series takes place in Colton, Leeds, on 22 October.

Ian Griffiths
