Thank you to everyone who joined us on bonfire night. I hope you all enjoyed the score course around Adel Village with accompanying fireworks! And the hospitality of Adel Sports and Social Club who provided car parking, toilets and refreshments.

With a large central area of parkland and playing fields, setting an urban course on a single map was a challenge to make use of the limited number of route choices and contour lines in this area of Leeds. Six runners cleared the course on the night – well done to you all! I endeavoured to set a variety of closer controls for less speedy participants, which also received positive feedback afterwards.

Thank you also to Richard Foster for the map, David Alcock and Rob Gatenby for reviewing the course and risk assessment.
