

Baildon Moor (18/02/2026) Results

I hope you enjoyed navigating over Baildon Moor, despite the Arctic weather. I found a "mars & co" pen at control 12 - let me know if you lost it. The shortest straight-line route that visits all the controls was 8.8km, but it includes a lot of climb, so it's probably not the fastest. I've included it below the results. Thanks Julia C and Dave M for helping, and Ian M for controlling.
